21 NOV 1955

MEMORANDUM FOR: Acting Chief, [REDACTED]

25X1A

SUBJECT: Egyptian Military Imports, [REDACTED]

25X1A

REFERENCE: Memo to AD/RR from Acting Chief,
[REDACTED] dated 7 November 1955

25X1A

1. In response to the subject request, there is attached hereto a summary of Egyptian imports of military equipment. In the preparation of this report all sources available to ORR have been examined. This survey indicates that the following sources provide the information pertinent to the subject: CIA, State, and Navy dispatches, and The New York Times and London Times.

2. It has been determined that complete coverage of this subject is included in the Current Intelligence Digest. Should information on specific items of equipment be desired, it is suggested that informal consultation with branches of our Industrial Division would supply timely response. Meantime, it is believed that you will find OCI's reports will provide comprehensive current coverage in lieu of a weekly compilation by ORR.
